**Subject:** RE: DFT Uranium Mines Questions

Hi there,

Thanks for meeting without us—it's been crazy here to say the least. Here are some brief answers:

1. No, Powertech needs to get its permits from EPA UIC program before the State of SD will give them permits.
2. No public meeting scheduled as of yet. I will get preliminary data back next week—if there is a release, we are planning to try to order access/sample again next Spring 2016. I would advise that we don't send out any 104(e) letters until we see the data next week.

Thanks again and have a good weekend,

*Dania Zinner*

**Subject:** DFT Uranium Mines Questions

Hi Dania,

Jared and I met briefly today to discuss sending the DFT Uranium Mines 104(e) letters. We also discussed access issues and the RA Briefing.

Jared had two questions that I was unable to answer. Would you please answer these two questions for us?

- 1) Did Powertech ever get their permit from the State of SD?
- 2) Do you know when we plan on having our next public meeting?

Thanks, Dania.  
Sharon
